

Thursday, May 14, 2015 - I Wasn't There...

I wasn't there when the world came to be,
But His proof's all around for everyone to see...
Not millions or billions of years as some say,
God spoke from His mouth and created His way...

I wasn't there when Noah was spared,
But those left outside were hopelessly scared...
He built a great ark from instructions God gave,
And he and his family were all that were saved...

I wasn't there when Moses parted the sea,
But if I had his faith it would have rolled back even for me...
Faith as small as a mustard seed...
Has great power to help provide all that I need...

I wasn't there when Goliath fell dead,
David's task was made simple by following all that God said...
His life was not easy because for self he did live,
But Nathan rebuked him, said God must forgive...

I wasn't there when our Savior did die,
He was falsely accused and hung by men's lies...
His blood shed for me, flowing down from the cross,
If this wasn't so, my life would be lost...

One of these days, Christ will come back in the air,
Those of the world and His church He'll compare...
Those found lacking won't fare very well,
The Word warns us clearly, of a place that's called hell...

This doesn't make God mean or cold,
It teaches us all that we should do what we're told...
For those who obey, God's promise we see,
A place called heaven provides rest for you and for me...
